Annex A

Overlay of Scale 1:25,000, 25X1

SECRET

SECRET

25X1

Legend to Annex A

- 1. A double railroad line between Kursdorf (N 51-25, E 12-14) and Teichwolframsdorf.
- A road, four to five meters wide with gravel-packed surface; called Bahnhof Strasse in the depot area; it leads from Nord Wolfersdorf south to Teichwolframsdorf.
- 3. Uranium transshipment depot.
- 4. Forest roads, two to three meters wide.
- 5. Road from Teichwolframsdorf to Trunzig.

SECRET

SECRET

25X1

Legend to Annex B

1. Wooden depot building, 40x10x8 meters, built on five-meter high reinforced concrete columns. Below the roof was a two-meter high corridor. The loading or transfer system of ore to railroad cars of this depot was the same as the operation conducted at the Bad Blankenburg ore transshipment depot

25X1

- One-story wooden barracks, 10x4x3 meters, which included locker rooms, showers, and offices.
- 3. Road. See Point 2, Legend to Annex A.
- 4. Double rail line, see Point 1, Legend to Annex A.
- 5. Railroad Spurs which branched off to the main rail line, Pt. 4, and lead to the ore transshipment depot building.
